SUMMARY

Active duty U.S. Navy Cryptologic Technician Maintenance (CTM) with ten years of experience maintaining and administering mission-critical cryptologic systems aboard submarines. Holds an active TS/SCI clearance. Currently transitioning into cybersecurity with a focus on SOC analysis and penetration testing. CompTIA Network+ certified, pursuing Security+ and Linux+ alongside a B.S. in Cybersecurity and Information Assurance at WGU.

EXPERIENCE

Systems Administrator / Maintenance Technician

NIOC Whidbey Island — U.S. Navy | 2025 – Present

- Maintain Windows and Linux networks and systems supporting a 24/7 mission watchfloor
- Perform user administration, network troubleshooting, and system repairs to ensure continuous operational availability
- Manage and resolve network and system issues under time-sensitive operational conditions

Carry-On Equipment Installations Team Leader

NIOC Pacific — U.S. Navy | 2023 – 2025

- Led a four-person team installing, certifying, repairing, and removing cryptologic support systems aboard submarines in the PACOM AOR
- Served as the NIOC Pacific representative aboard platforms, interfacing directly with commanding officers and shipyards to meet COMSUBPAC mission deadlines
- Completed sixty cryptologic suite installations and trained over fifty junior sailors, directly enabling the timely execution of COMSUBPAC mission objectives

Workcenter Supervisor

U.S. Navy | 2021 - 2023

- Supervised approximately 30 technicians across day-to-day maintenance operations at the Fleet Electronic Support Center
- Managed in-shop certification schedules and logistics for cryptologic suites to ensure installation and removal timelines were consistently met
- Oversaw personnel readiness, maintenance cycles, and equipment accountability

Maintenance Supervisor

U.S. Navy | 2020 - 2021

- Supervised junior technicians in certification and maintenance operations at the Fleet Electronic Support Hawaii

Maintenance Technician

U.S. Navy | 2019 - 2020

- Assisted in the maintenance and certification of cryptologic suites at Fleet Electronics Support Hawaii.

EDUCATION

B.S. Cybersecurity and Information Assurance (In Progress)

Western Governors University — via USNCC Program

CTM Antenna Maintenance School | U.S. Navy

CTM CRIMP School | U.S. Navy

CTM C School — Cluster Snoop | U.S. Navy

CTM A School | U.S. Navy

CERTIFICATIONS

- CompTIA Network+ (Earned)
- CompTIA Security+ (In Progress)
- CompTIA Linux+ (In Progress)

TECHNICAL SKILLS

Linux & Windows System Administration | Network Installation & Troubleshooting | Cryptologic Systems Maintenance | User Administration | Remote Cryptologic Support Equipment (RCSE)

CLEARANCE

Top Secret / SCI — Active

AWARDS & DECORATIONS

Navy and Marine Corps Achievement Medal (x3) | Navy Good Conduct Medal | Global War on Terrorism Service Medal | Navy Expeditionary Medal
